## 6ES7132-4BB01-0AB0

SIMATIC DP, 5 electronic modules for ET 200S, 2 DO High Feature 24 V DC/0.5 A, 15 mm width, Diagnostics short circuit and wire break, Substitute value output with LED SF (group fault) 5 units per packing unit

| Supply voltage   |  |
|--|--|
| Reverse voltage protection                                 | Yes; when using the same load voltage as on the power module                   |
| Load voltage L+  |  |
| <ul> <li>Rated value (DC)</li> </ul>                       | 24 V; From power module  |
| <ul> <li>Reverse polarity protection</li> </ul>            | Yes; polarity reversal can lead to the digital outputs being connected through |
| Input current  |  |
| from load voltage L+ (without load), max.                  | 5 mA; Per channel  |
| from backplane bus 3.3 V DC, max.                          | 10 mA  |
| Power loss   |  |
| Power loss, typ.   | 0.4 W  |
| Address area   |  |
| Address space per module                                   |  |
| <ul> <li>Address space per module, max.</li> </ul>         | 1 byte   |
| <ul> <li>with packing</li> </ul>                           | 2 bit  |
| Digital outputs  |  |
| Type of digital output                                     | Source output (PNP, current-sourcing)  |
| Number of digital outputs                                  | 2  |
| Short-circuit protection                                   | Yes  |
| Response threshold, typ.                                   | 1.5 A  |
| Limitation of inductive shutdown voltage to                | -55 to -60 V, typ. L+( )   |
| Controlling a digital input                                | Yes  |
| Switching capacity of the outputs                          |  |
| <ul> <li>on lamp load, max.</li> </ul>                     | 2.5 W  |
| Load resistance range                                      |  |
| lower limit  | 48 Ω   |
| upper limit  | 3 400 Ω  |
| Output voltage   |  |
| ● for signal "1", min.                                     | L+ (-1 V)  |
| Output current   |  |
| <ul> <li>for signal "1" rated value</li> </ul>             | 0.5 A  |
| <ul> <li>for signal "1" permissible range, min.</li> </ul> | 7 mA   |
| <ul> <li>for signal "1" permissible range, max.</li> </ul> | 600 mA   |
| <ul> <li>for signal "0" residual current, max.</li> </ul>  | 0.3 mA   |
| Output delay with resistive load                           |  |
| ● "0" to "1", max.   | 100 µs   |
| • "1" to "0", max.   | 400 µs   |
| Parallel switching of two outputs                          |  |
| <ul> <li>for uprating</li> </ul>                           | No   |

| <ul> <li>for redundant control of a load</li> </ul>         | Yes; per module                    |
|---|------------------------------------|
| Switching frequency   |                                    |
| <ul> <li>with resistive load, max.</li> </ul>               | 100 Hz                             |
| <ul> <li>with inductive load, max.</li> </ul>               | 2 Hz                               |
| <ul> <li>on lamp load, max.</li> </ul>                      | 10 Hz                              |
| Total current of the outputs                                |                                    |
| Current per module, max.                                    | 1 A                                |
| Cable length  |                                    |
| <ul> <li>shielded, max.</li> </ul>                          | 1 000 m                            |
| <ul> <li>unshielded, max.</li> </ul>                        | 600 m                              |
| Interrupts/diagnostics/status information                   |                                    |
| Diagnostics function  | Yes                                |
| Substitute values connectable                               | Yes; 0/1                           |
| Diagnoses   |                                    |
| <ul> <li>Diagnostic information readable</li> </ul>         | Yes                                |
| • Wire-break  | Yes; channel by channel            |
| Short-circuit   | Yes; channel by channel            |
| Diagnostics indication LED                                  |                                    |
| <ul> <li>Group error SF (red)</li> </ul>                    | Yes                                |
| <ul> <li>Status indicator digital output (green)</li> </ul> | Yes                                |
| Parameter   |                                    |
| Remark  | 3 byte                             |
| Diagnostics wire break                                      | Disable / enable                   |
| Diagnostics short-circuit                                   | Disable / enable                   |
| Response to CPU/master STOP                                 | Substitute a value/keep last value |
| Potential separation  |                                    |
| Potential separation digital outputs                        |                                    |
| <ul> <li>between the channels</li> </ul>                    | No                                 |
| <ul> <li>between the channels and backplane bus</li> </ul>  | Yes                                |
| Isolation   |                                    |
| Isolation tested with                                       | 500 V DC                           |
| Dimensions  |                                    |
| Width   | 15 mm                              |
| Height  | 81 mm                              |
| Depth   | 52 mm                              |
| Weights   |                                    |
| Weight, approx.   | 40 g                               |
| last modified:  | 2/9/2021 🖸                         |
