SIEMENS

Data sheet

transfer rate

6GK7243-7SX30-0XE0

product type designation

CP 1243-7 LTE US

Communications processor CP 1243-7 LTE US for Connection of SIMATIC S7-1200 to LTE network in American frequency band .

tialisiei late	
transfer rate	
 for LTE transmission 	
— with downlink / maximum	42 Mbit/s
— with uplink / maximum	5.76 Mbit/s
interfaces	
number of interfaces / according to Industrial Ethernet	0
number of electrical connections	
for external antenna(s)	1
for power supply	1
number of slots	
• for SIM cards	1
type of electrical connection	
for external antenna(s)	SMA socket (50 ohms)
for power supply	3-pole terminal block
slot version	
• for SIM card	Standard
wireless technology	
type of mobile wireless service	
is supported / SMS	Yes
is supported / GPRS	Yes
• note	GPRS (Multislot Class 10)
type of wireless network / is supported	
• GSM	Yes
• UMTS	Yes
• LTE	Yes
operating frequency	
• 850 MHz	Yes
• 1900 MHz	Yes
operating frequency / for LTE transmission	700 MHz, 1700 MHz
supply voltage, current consumption, power loss	
type of voltage / of the supply voltage	DC
supply voltage / external	24 V
supply voltage / external / at DC / rated value	24 V
relative positive tolerance / at DC / at 24 V	20 %
relative negative tolerance / at DC / at 24 V	20 %
consumed current	
 from external supply voltage / at DC / at 24 V / typical 	0.1 A
from external supply voltage / at DC / at 24 V /	0.22 A

maximum	
ambient conditions	
ambient temperature	
for vertical installation / during operation	-20 +60 °C
 for horizontally arranged busbars / during operation 	-20 +70 °C
during storage	-40 +70 °C
 during transport 	-40 +70 °C
relative humidity	
 at 25 °C / without condensation / during operation / 	95 %
maximum	
protection class IP	IP20
design, dimensions and weights	
module format	Compact module S7-1200 single width
width	30 mm
height	100 mm
depth	75 mm
net weight	0.133 kg
fastening method	ŭ
35 mm top hat DIN rail mounting	Yes
• S7-300 rail mounting	No
wall mounting	Yes
product features, product functions, product components	**
	/ general
number of units	
per CPU / maximum	3
performance data	
number of users/telephone numbers / definable /	10
maximum	
performance data / open communication	
number of possible connections / for open communication	
by means of T blocks / maximum	like CPU
performance data / IT functions	
number of possible connections	,
as email client / maximum	1
·	1
as email client / maximum	1
as email client / maximum performance data / telecontrol	1 Yes
as email client / maximum performance data / telecontrol suitability for use	
as email client / maximum performance data / telecontrol suitability for use substation control center connection	Yes
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection	Yes Telecontrol Server Basic supported
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection by means of demand-oriented connection	Yes Telecontrol Server Basic supported supported
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection by means of demand-oriented connection note	Yes Telecontrol Server Basic supported
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection by means of demand-oriented connection	Yes Telecontrol Server Basic supported supported
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes Yes
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes Yes
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes Yes Yes; 64,000 events
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes Yes Yes; 64,000 events
as email client / maximum performance data / telecontrol suitability for use	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes Yes Yes; 64,000 events
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum performance data / teleservice	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes Yes Yes Yes; 64,000 events
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum performance data / teleservice diagnostics function / online diagnostics with SIMATIC	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes Yes Yes; 64,000 events
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum performance data / teleservice diagnostics function / online diagnostics with SIMATIC STEP 7	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes Yes Yes Yes; 64,000 events
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 lEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum performance data / teleservice diagnostics function / online diagnostics with SIMATIC STEP 7 product function	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes Yes Yes Yes; 64,000 events 3 15
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum performance data / teleservice diagnostics function / online diagnostics with SIMATIC STEP 7 product function program download with SIMATIC STEP 7	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes Yes Yes Yes; 64,000 events Yes Yes
as email client / maximum performance data / telecontrol suitability for use	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes Yes Yes Yes; 64,000 events Yes Yes Yes
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum performance data / teleservice diagnostics function / online diagnostics with SIMATIC STEP 7 product function program download with SIMATIC STEP 7 remote firmware update product functions / management, configuration, engineeri	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes Yes Yes Yes; 64,000 events Yes Yes Yes
as email client / maximum performance data / telecontrol suitability for use	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes Yes Yes Yes; 64,000 events Yes Yes Yes
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum performance data / teleservice diagnostics function / online diagnostics with SIMATIC STEP 7 product function program download with SIMATIC STEP 7 remote firmware update product functions / management, configuration, engineeri	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes Yes Yes Yes; 64,000 events Yes Yes Yes
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection note protocol / is supported DNP3 lEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum performance data / teleservice diagnostics function program download with SIMATIC STEP 7 remote firmware update product functions / management, configuration, engineericonfiguration software required	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes Yes Yes; 64,000 events Yes Yes Yes Yes Yes
as email client / maximum performance data / telecontrol suitability for use	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes Yes Yes Yes; 64,000 events Yes Yes Yes Yes Yes Yes Yes Yes Yes Y
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum in receive data / teleservice diagnostics function / online diagnostics with SIMATIC STEP 7 product function program download with SIMATIC STEP 7 remote firmware update product functions / management, configuration, engineericonfiguration software required product functions / diagnostics product function / web-based diagnostics	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes Yes Yes; 64,000 events Yes Yes Yes Yes Yes
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum in receive data / teleservice diagnostics function / online diagnostics with SIMATIC STEP 7 product function program download with SIMATIC STEP 7 remote firmware update product functions / management, configuration, engineeri configuration software required product functions / diagnostics product functions / web-based diagnostics product functions / security	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes Yes Yes Yes; 64,000 events Yes Yes Yes Yes Yes Yes Yes Yes Yes Y
as email client / maximum performance data / telecontrol suitability for use substation control center connection by means of a permanent connection by means of demand-oriented connection note protocol / is supported DNP3 IEC 60870-5 product function / data buffering if connection is aborted number of stations / for direct communication / with Telecontrol Server Basic in send direction / maximum in receive direction / maximum in receive data / teleservice diagnostics function / online diagnostics with SIMATIC STEP 7 product function program download with SIMATIC STEP 7 remote firmware update product functions / management, configuration, engineericonfiguration software required product functions / diagnostics product function / web-based diagnostics	Yes Telecontrol Server Basic supported supported Connection to SCADA system using OPC interface Yes Yes Yes Yes; 64,000 events Yes Yes Yes Yes Yes Yes Yes Yes Yes Y

type of encryption algorithms / with VPN connection AES-256, AES-192, AES-128, 3DES-168, DES-56 type of authentication procedure / with VPN connection Preshared key (PSK), X.509v3 certificates type of hashing algorithms / with VPN connection MD5, SHA-1 number of possible connections / with VPN connection product function Yes · password protection for teleservice access • encrypted data transmission Yes product functions / time protocol / is supported NTP Yes time synchronization Yes • from control center standards, specifications, approvals / hazardous environments certificate of suitability / CCC / for hazardous zone Yes according to GB standard further information / internet-Links Internet-Link • to web page: selection aid TIA Selection Tool http://www.siemens.com/tia-selection-tool • to website: Industrial communication http://www.siemens.com/simatic-net • to website: Industry Mall https://mall.industry.siemens.com • to website: Information and Download Center http://www.siemens.com/industry/infocenter • to website: Image database http://automation.siemens.com/bilddb • to website: CAx-Download-Manager http://www.siemens.com/cax • to website: Industry Online Support https://support.industry.siemens.com security information security information Siemens provides products and solutions with industrial security functions that support the secure operation of plants, solutions, machines, equipment and/or networks. They are important components in a holistic industrial security concept. With this in mind, Siemens' products and solutions undergo continuous development. Siemens recommends strongly that you regularly check for product updates. For the secure operation of Siemens products and solutions, it is necessary to take suitable preventive action(e.g. cell protection concept) and integrate each component into a holistic, state-of-the-art industrial security concept. Third-party products that may be in use should also be considered. For more information about industrial security, visit http://www.siemens.com/industrialsecurity. To stay informed about product updates as they occur, sign up for a product-specific newsletter.
